Minimal Example

1. This is a sample question

   (a) Here is the first subquestion. This would map onto (a),(b),(c) etc in Lambda Feedback.

   It might have multiple paragraphs.

   (b) Here is a second subquestion.

2. This is a second question.

Extra section title mid-problem-sheet in a couple of places

3. This is a third question. A separate solution file (if provided) should follow the same format.
